

# Variable Rate & Sectional Control Systems

## Pattison Liquid Systems Auto Rate and Sectional Control

A liquid fertilizer application system that allows you to control and change rates on the go. When used in conjunction with sectional boom controls, the system can assist in reducing fertilizer costs.

### Auto Rate / Sectional Control Packages

DESCRIPTION	PART #
Basic Control Package	RAXARC
3 Section Boom System	RAXBOOM3
4 Section Boom System	RAXBOOM4
5 Section Boom System	RAXBOOM5
6 Section Boom System	RAXBOOM6
7 Section Boom System	RAXBOOM7
8 Section Boom System	RAXBOOM8
9 Section Boom System	RAXBOOM9
10 Section Boom System	RAXBOOM10

Pressure monitor

### STANDARD FEATURES:

- A complete pre-assembled auto rate package, for easy installation
- Mounted on a heavy steel frame.
- Shield protects components from damage.
- Components are resistant to the corrosive effects of liquid fertilizer.
- System allows for higher rates of today's fertilizer usage.
- Pressure monitor system included with the purchase of multi sectional boom controls.

Variable Rate & Sectional Control Systems

Auto Rate system with 5 sectional controls.

### SYSTEMS:

RAXARC - Basic control package includes, flow regulating valve, manual pressure relief valve, flow meter, 10' flow harness, and up to 5 sectional boom valves. This system can be easily adapted to existing application controllers.

### New - Liquid Applier Remote Boom Control

This boom control is easily adapted to our sectional control system to allow the operator to turn sections of his drill off and on remotely. The system allows the operator to stand in close proximity to the seeding tool and visually inspect each fertilizer run. The remote boom control can turn each section of the drill off and on, drastically reducing the loss of fertilizer while inspecting each run for blockage. The liquid applicator remote boom control can only be used with Hyd. driven centrifugal product pumps.

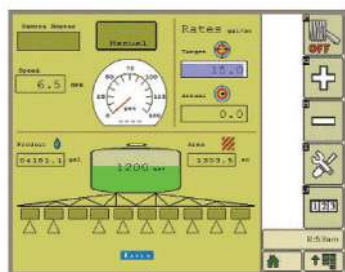

### Liquid Applier Remote Boom Control

DESCRIPTION	PART #
Remote boom module	ATLARC20722000APMX
Sectional boom harness ea.	ATSBRC20713400APMX

### Accessories - Cables

DESCRIPTION	PART #
12' Product cable - 440/450	RA11150171129
10' SCS440/450 console cable	RA11150171085
24' Extension harness 440/450	RA11150159857
12' Product Cable - 4400/4600	RA11150171313
24' Extension Harness 4400/4600	RA11150171320
10' Console harness - 4400/4600	RA11150171300

### ISOBUS - Product control also available

- Industry leading flow and application control technology
- Optional switch box for manual override of individual section
- Universal product page no matter what controller you use
- Task controller interface, section control compatibility, data-logging, and variable rate application with supporting virtual terminals
